Opis produktu

Hobgrot Vandalz are so cruel and sneaky, it is no wonder many are found serving the Helmsmiths of Hashut. Carrying cast-off weapons pilfered from factory floors, most eventually meet a grisly end. They are herded before the advancing duardin - used to fatally absorb an enemy's opening salvos and vanguard strikes. Still, hobgrots are capable warriors, especially if they can mob up against an unsuspecting 'mark'.

This multipart plastic kit builds 20 Hobgrot Vandalz, light infantry for your Helmsmiths of Hashut armies in games of Warhammer Age of Sigmar. They are ideal for overrunning your foes, protecting vital units, and taking exposed objectives. Equipped with shields and scavenged weapons, including a mix of hammers, blades, and picks, they are ready to get stuck in. The kit also includes parts to build two optional standard bearers, musicians, and champions armed with your choice of dagger or chain weapon.

This kit is supplied with one Helmsmiths of Hashut Transfer Sheet, containing 450 high-quality waterslide transfers. These include symbols for the Ur-Zorn, Muspelzharr, Zharr Vyxa, and The Forge Anathema ziggurats, along with other cursed sigils and runes to decorate your miniatures.

This kit comprises 124 plastic components and 20x Citadel 25mm Round Bases. These miniatures require assembly and are supplied unpainted - we recommend using Citadel Plastic Glue and Citadel Colour paints.
