Opis produktu

Sloven Knights have turned their backs on whatever honour they might once have possessed. Now these diseased cavaliers clad in rotting panoply are sworn to the Grandfather. They are imposing figures atop their plague-ridden steeds, their very presence exuding a palpable and debilitating aura of despair.

This multipart plastic kit builds three Sloven Knights, elite cavalry for your Maggotkin of Nurgle armies in games of Warhammer Age of Sigmar. Riding mutated, foetid nags, they can respond quickly to changes in the battle and get to grips with the enemy faster than your infantry. Rather than the noble lances they once carried, they are now armed with entropic bludgeons - brutal weapons that make a mockery of enemy armour. The kit includes five interchangeable heads - including one that makes an optional champion - and another head that can be used on two of the Sloven Knights, offering a degree of customisation to your twisted cavalry.

This kit comprises 46 plastic components and 3x Citadel 75mm by 41.5mm Oval Bases. These miniatures require assembly and are supplied unpainted - we recommend using Citadel Plastic Glue and Citadel Colour paints.
