Opis produktu

Saurus Warriors are the brutal heart of the Seraphon armies. Bred solely for war, these reptilian cohorts advance across the battlefield in disciplined lockstep, unleashing their cold-blooded savagery only when battle is joined. Once the command is given, the ranks of the Saurus Warriors become a fearsome threshers of celestite weaponry, savage jaws, and single-minded focus.

This multipart plastic kit builds 10 Saurus Warriors – the scaled shock troops of the Seraphon. Each Saurus Warrior can be armed with a spike-studded celestite club or a long-handled celestite spear, and the kit includes 10 different designs of interchangeable heads and shields, to ensure you can build a varied cohort of cold-blooded soldiers. One model can be built as an Alpha champion – with a unique head, shield, and weapons – one as a War-drummer musician, and one as an Icon Bearer carrying a serpentine idol with a choice of two heads.

This kit comprises 95 plastic components, and comes with 10x Citadel 32mm Round Bases. These miniatures are supplied unassembled and unpainted – we recommend using Citadel Plastic Glue and Citadel Colour paints.
