Opis produktu

Belthanos, the First Thorn of Kurnoth, leads the eternal hunt that keeps his master's spirit in bloom. Cloaked in evergreen and riding atop a Carnelian Greatspite made of pure life magic, he chases down those who would harm Ghyran so that his howling Revenant Seeker and Kurnoth Hunter followers might rip them apart.

This multipart plastic kit builds Belthanos, riding atop a Carnelian Greatspite, as well as a unit of three Revenant Seekers and three Kurnoth Hunters to accompany him into battle. This aggressive formation is ideal for taking the fight to the enemies of the wild places of the Mortal Realms.

Rules for fielding Belthanos, the First Thorn of Kurnoth, in your Sylvaneth armies – and the Evergreen Hunt army of renown itself – can be found in Dawnbringers Book III - The Long Hunt, which is available separately.

This set includes the following:

- 1x Belthanos, First Thorn of Kurnoth
- 3x Revenant Seekers (which can alternatively be built as Spiterider Lancers)
- 3x Kurnoth Hunters

This kit comprises 240 plastic components, and all models are supplied with their appropriate bases. These miniatures are supplied unpainted and require assembly – we recommend using Citadel Plastic Glue and Citadel Colour paints.
